

Kindergarten go Potty!

Back in March, Kindergarten used our brand new planters for the 1st time and planted 9 seed potatoes.

We've been earthing them up and watering them ever since and last Friday 26th June, we decided it was time to harvest them.

Armed with our gardening tools (bought with money raised from saving Shreddies Tokens last year) we all set out to dig them up and to our absolute delight we found that we had grown 147 potatoes.

After getting the kitchen to cook some for us to eat (thanks to Chef and Mrs McDougall), we divided the rest between us and took them home for tea.

I hope everyone enjoyed them! We now have to decide what we want to grow next year!
